

Daniel Shatzov | Full-Stack Developer

shatzovdani@gmail.com | +972-50-430-6127 | LinkedIn: Daniel Shatzov | GitHub: Daniel23sh

SUMMARY

Full-Stack Developer and Computer Science student with hands-on experience building web and mobile products across frontend and backend systems. Skilled in architecture, implementation, database integration, API development, testing, and structured problem-solving.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Python, SQL, C

Technologies: React, React Native, Tailwind CSS, FastAPI, Node.js, Fastify, PostgreSQL, Supabase, Prisma

Developer Tools: Docker, Git/GitHub, Codex, ChatGPT

PROJECTS

CheckIT - Early-Stage EdTech Product | Full-Stack Developer | Jan 2026 - Present

React Native, Expo, TypeScript, Fastify, PostgreSQL, Prisma, Supabase, Python, OpenAI API

- Lead end-to-end technical development, including architecture, technology selection, frontend and backend implementation, database integration, testing, and AI-based information extraction pipelines.
- Translate product and UX requirements into features with another developer and a UX/UI designer.

QueryOps AI – Data & Operations Platform | Solo Full-Stack Developer | May 2026 - Present

Python, FastAPI, React, TypeScript, PostgreSQL, Docker

- Built a role- and scope-aware platform that converts natural-language questions into validated SQL results, reusable dashboards, and controlled operational actions.
- Implemented RLS-secured query execution, reusable dashboards, controlled action previews and approvals, audit logging, and comprehensive automated tests.

WhatsApp Google Calendar Bot | Solo Full-Stack Developer | Feb 2026 - Jul 2026

Node.js, Fastify, Supabase, PostgreSQL, Twilio, Google OAuth 2.0, OpenAI API

- Built a bilingual WhatsApp assistant that converts Hebrew, English, and mixed-language text or voice messages into validated Google Calendar events through multi-turn clarification.
- Implemented Twilio signature verification, encrypted Google token storage and refresh, deterministic time and DST validation, and comprehensive automated unit and integration tests.

EXPERIENCE

SCCM Administrator - Elbit Systems (Elisra Division) | Sep 2021 - Oct 2023

- Promoted from technical support to SCCM administration, supporting an enterprise endpoint-management environment serving tens of thousands of users across Elbit Systems and its subsidiaries.
- Built PowerShell, SCCM, and SQL automation, including a cloud-migration readiness tool that consolidated employee and device data, provided managers with scoped visibility, and enabled them to initiate migration workflows.

Network Administrator & Shift Lead - Israeli Military Intelligence | Aug 2018 - Apr 2021

- Coordinated a five-person shift providing network and helpdesk support to 500+ users across multiple sites in a high-security environment.

EDUCATION

B.Sc. in Computer Science, Holon Institute of Technology (HIT) | Oct 2023 - Aug 2026 (Expected)

LANGUAGES

Hebrew (Native) | English (Proficient) | Russian (Basic)
